**INATA**

LUXURIOUS  
ALPACA  
FOR  
INTERIORS

## « From wood to fabric »

Faithful to its tradition of combining outstanding materials together, Maison Philippe Hurel will welcome INATA, a remarkable fabric designer, to its Parisian showroom .

Founded in 2014, this young company creates exclusive textile designs from the best alpaca's wool farmers. Its range of products is made from luxurious 100% natural wool, handcrafted in accordance with the tradition of the weavers of the Peruvian Altiplano.

This year, Maison Philippe Hurel has whole heartedly chosen to showcase a selection of INATA's luxurious, indulgent and inventive fabrics to be united with our range of furniture on a dedicated scenography.

We invite you to come and discover them in our refreshed showroom on rue du Bouloi.

The Maison Philippe Hurel is proud to celebrate 110 years of exceptional workmanship this year. As a member of the National Artisan guild of marquetry and wood craftsmanship, we have internationally and confidently gone through decades of servicing for greatly renown names and private clientele within the decoration sector.
